B.Tech, Artificial Intelligence and Machine Learning

Address : flat-4301 tower -4 vasavi sri nilayam , L.B Nagar ,
chinthalakunta , hyderabad

CVR College of
Engineering

Education

CVR College Of Engineering

B.Tech · Artificial Intelligence and Machine Learning

2027

NARAYANA JUNIOR COLLEGE

Class XII - TSBE · MPC · HYDERABAD

2023

Percentage - 93.1%

NARAYANA SCHOOL

Class X - SSC · GENERAL · HYDERABAD

2021

Percentage - 95%

Projects

Trace Back - Missing Person Identification System

Mini Project · Python, Streamlit, OpenCV, NumPy, Face Recognition, SQLite/
MySQL, HTML, CSS

Artificial Intelligence / Computer Vision

- Developed an AI-based system to identify and trace missing persons using facial recognition
- Implemented image processing and face matching using OpenCV and face recognition techniques
- Designed a web interface using Streamlit for case registration, image upload, and result display
- Integrated database (SQLite/MySQL) for secure storage and retrieval of case details
- Enabled filtering and dashboard features to efficiently manage and track missing person cases

Bus Buddy - Smart Bus Route Management System

CVR College of Engineering · Python, MySQL, HTML, CSS, JavaScript

Web Development / Database
Application

- Developed a web application to enable efficient search of bus routes, stops, and driver details
- Implemented notification system for delays, breakdowns, and schedule updates
- Designed and integrated MySQL database for storing route and driver information
- Built user-friendly interface for easy navigation and quick access to transport details

Travel Expense Splitter

Node.js Lab · React.js, Node.js, JavaScript

Application Development

- Developed a Node.js-based application to manage and split travel expenses
- Implemented logic for calculating and distributing expenses among users
- Focused on backend functionality and data handling using JavaScript
- Performed testing and validation of expense calculations

Skills

Programming Languages: Python

Languages and Frameworks: HTML, React.js

Domain Knowledge: DBMS, Operating Systems

Technical Skills: Data Structures

Areas of Interest: Machine Learning, Deep Learning

Tools and Technologies: NumPy

Certifications

Become a Data Analyst

LinkedIn Learning

AWS Academy Cloud Foundations

Amazon Web Services (AWS)

HTML Essentials

Cisco

Getting Started as a Business Analyst

LinkedIn Learning

Database Programming with SQL

Oracle

Languages

English [Professional Working Proficiency], Telugu [Native Proficiency], Hindi [Professional Working Proficiency]
